

**SINGLE FAMILY/RESIDENTIAL
LAND DISTURBANCE
APPLICATION REQUIREMENTS
COUNTY OF NEW KENT, VIRGINIA
WEB SITE: WWW.CO.NEW-KENT.VA.US**

OFFICE USE ONLY	
All of the required information has been submitted.	_____
	Staff Initials

Environmental Department ♦PO Box 150♦New Kent, VA 23124♦Phone 804-966-8580♦Fax 804-966-8531
♦Street Address for deliveries: 12007 Courthouse Circle, New Kent, VA 23124♦

Please be advised that you are required to submit a Land Disturbance Permit application to the Environmental Department if you are disturbing 2,500 square feet or more. The permit application must be accompanied by a site plan/survey of the property.

The Site Plan must include the following information:

- Location of any RMA/RPA (if applicable)
 - RPA sign locations should be marked on the plan.
 - Signs should be placed along the RPA delineation where it is intersected by property lines and at 300-foot intervals between the property lines
- House Location
 - Finished Floor Elevation, when construction occurs in a flood plain.
- Primary Drainfield & Reserve Drainfield (if applicable)
- Well Location (if applicable)
- Existing Conditions (existing tree lines, structures, roads or access, etc.)
- Limits of Clearing
- Erosion and Sediment Controls (Silt Fence, Construction Entrance, Concrete Washout, etc.)
- Any culverts and/or stormwater pipes outside the VDOT right-of-way (if applicable)
 - Please include calculations to verify that size is correct
- Stamp of Architecture Review Board (if applicable)

Make sure that the following signatures are on the Land Disturbance Permit Application:

- Signature and contact information of the Responsible Land Disturber
 - Certification through the VA Dept of Conservation and Recreation or Dept of Transportation/VTCA is required
- Signature of Owner and/or Applicant

The following required information must be submitted with your Land Disturbance Permit:

- A copy of the recorded deed
- Health Department Permit
- Historical Significance Inventory
- Stormwater Pollution Prevention Plan (SWPPP) w/ Agreement in Lieu of a Stormwater Management Plan attached

Installation of driveway entrances/work being completed in a State maintained right-of-way will need a Land use permit (LUP-PE) from Virginia Department of Transportation.

****Incomplete applications will not be accepted****

I, _____ (Print Name of Owner or Applicant) hereby certify that I have provided all of the required information for the submission of my Land Disturbance Permit as indicated above.

Signature of Owner or Applicant Date

RESPONSIBLE LAND DISTURBER

Name: _____ Company: _____
 Address: _____ Phone: _____
 City: _____ State: _____ Zip: _____
 Cert. No./Type: _____ Expiration Date: _____
 Signature of Land Disturber: _____ Date: _____

I, _____ (*Owner/Applicant*) hereby certify that I fully understand the provisions of The NEW KENT COUNTY Erosion and Sediment Control Ordinance and Program, and that I accept responsibility for carrying out the Erosion and Sediment Control Plan for the above referenced project location as approved by the County. I grant the right of entry onto this property, as described above, to the designated personnel for NEW KENT COUNTY for the purpose of inspecting and monitoring for compliance with the aforesaid Ordinance. I further understand that this permit is valid for six (6) months following the date of issue, unless closed sooner. Renewal fees must be submitted ten (10) business days prior to permit expiration.

Upon signature by the local program administrator, the application is approved, and becomes the permit.

~THIS PERMIT OR THE LAND DISTURBANCE CARD MUST BE POSTED ON THE PROPERTY~

**STORMWATER POLLUTION PREVENTION
PLAN**

Pollution Prevention Practices:

- (1) **Clearing, grading, excavating and un-stabilized areas** – Utilize erosion and sediment controls to prevent sediment laden or turbid runoff from leaving the construction site. Dispose of clearing debris at acceptable disposal sites. Apply permanent or temporary stabilization, sodding and/or mulching to denuded areas in accordance with the erosion and sediment control specifications and the general VPDES permit for discharges of stormwater from construction activities.
- (2) **Paving operations** – Cover storm drain inlets during paving operations and utilize pollution prevention materials such as drip pans and absorbent/oil dry for all paving machines to limit leaks and spills of paving materials and fluids.
- (3) **Concrete washout and cement waste** – Direct concrete wash water into a leak-proof container or leak-proof settling basin that is designed so that no overflows can occur due to inadequate sizing or precipitation. Hardened concrete wastes shall be removed and disposed of in a manner consistent with the handling of other construction wastes.
- (4) **Structure construction, stucco, painting and cleaning** – Enclose, cover or berm building material storage areas if susceptible to contaminated stormwater runoff. Conduct painting operations consistent with local air quality and OSHA regulations. Mix paint indoors, in a containment area or in a flat unpaved area. Prevent the discharge of soaps, solvents, detergents and wash water from construction materials, including the clean-up of stucco paint, form release oils and curing compounds.
- (5) **Dewatering operations** – Construction site dewatering from building footings or other sources may not be discharged without treatment. Sediment laden or turbid water shall be filtered, settled or similarly treated prior to discharge.
- (6) **Material delivery and storage** – Designate areas of the construction site for material delivery and storage. Place near construction entrances, away from waterways, and avoid transport near drainage paths or waterways.
- (7) **Material use during building process** – Use materials only where and when needed to complete the construction activity. Follow manufacturer's instructions regarding uses, protective equipment, ventilation, flammability and mixing of chemicals.
- (8) **Solid waste disposal** – Designate a waste collection area on the construction site that does not receive a substantial amount of runoff from upland areas and does not drain directly to a waterway. Ensure that containers have lids so they can be covered at the end of each day and during periods of rain, and keep containers in a covered area whenever possible. Schedule waste collection to prevent the containers from overflowing.
- (9) **Sanitary waste** – Prevent the discharge of sanitary waste by providing convenient and well-maintained portable sanitary facilities. Locate sanitary facilities in a convenient location away from waterways.
- (10) **Landscaping operations** – Maintain as much existing vegetation as practicable. Apply permanent or temporary stabilization, sodding and/or mulching to denuded areas in accordance with the erosion and sediment control specifications and the general VPDES permit for discharges of stormwater from construction activities. Apply nutrients in accordance with manufacturer's recommendations and not during rainfall events.
- (11) **Others** – [If applicable, describe your Pollution Prevention Practice.](#)

6.0 Stormwater Management Controls

Select all that apply	Stormwater Management Control	Estimated Installation Date	Responsible Party
<input type="checkbox"/>	Post-development Stormwater Management Controls provided by a Larger Common Plan of Development or Sale	NA	Common Plan Construction Activity Operator

<input type="checkbox"/>	Others [describe]		

7.0 Spill Prevention & Response

Most spills can be cleaned up following manufacturer specifications. Absorbent/oil dry, sealable containers, plastic bags, and shovels/brooms are suggested minimum spill response items that should be available at this location.

- 1st Priority: Protect all people
 2nd Priority: Protect equipment and property
 3rd Priority: Protect the environment

1. Check for hazards (flammable material, noxious fumes, cause of spill) – if flammable liquid, turn off engines and nearby electrical equipment. If serious hazards are present leave the area and call 911. LARGE SPILLS ARE LIKELY TO PRESENT A HAZARD.
2. Make Sure the spill area is safe to enter and that it does not pose an immediate threat to health or safety of any person.
3. Stop the spill source.
4. Call co-workers and supervisor for assistance and to make them aware of the spill and potential dangers.
5. If possible, stop spill from entering drains (use absorbent or other material as necessary).
6. Stop spill from spreading (use absorbent or other material)
7. If spilled material has entered a storm sewer; contact locality's storm water department.
8. Clean up spilled material according to manufacturer specifications, for liquid spills use absorbent materials and do not flush area with water.
9. Properly dispose of cleaning materials and used absorbent material according to manufacturer specifications.

9.0 Grading & Stabilization Activities Log

Date Grading Activity Initiated	Description of the Grading Activity (including location)	Date Grading Activity Ceased	Date Stabilization Measures Initiated	Description of the Stabilization Measure (including location)

10.0 SWPPP Modification & Update Log

Modification Date	Description of the Modification / Update	Modification Prepared By (name & title)

**INSTRUCTIONS for COMPLETING the
SINGE FAMILY RESIDENCE, COMMON PLAN of DEVELOPMENT or SALE
STORMWATER POLLUTION PREVENTION PLAN (SWPPP)**

General

A Stormwater Pollution Prevention Plan (SWPPP) must be developed prior to obtaining locality (e.g., City, County, Town) authorization to commence land disturbance.

Cover Page

For a construction activity, enter the project/site name and physical address (if available), including city (or town), state and zip code. Enter the latitude and longitude in decimal degrees of the construction activity.

Enter the Construction Activity Operator's company/organization name, the Operator's name and mailing address, including city (or town), state, and zip code, telephone number, email address (if available), and a 24-hour emergency contact.

Enter the SWPPP preparation date.

The Construction Activity Operator identified on the cover page of the SWPPP is responsible for certifying the information contained therein. Please sign the certification in INK. Please note that state statutes require the SWPPP to be signed as follows:

- (1) For a corporation: by a responsible corporate officer;
- (2) For a partnership or sole proprietorship: by a general partner or the proprietor, respectively;
- (3) For a municipality, state, federal, or other public agency: by either a principal executive officer or ranking elected official.

Section 1.0 SWPPP Documents Located Onsite & Available for Review

Utilize the provided checklist to ensure that the required SWPPP documents are located onsite and are available for review, if applicable.

Section 2.0 Authorized Non-Stormwater Discharges

Identify the authorized non-stormwater discharges likely to be present at the project site. If an unlisted authorized non-stormwater discharge is likely to be present at the project site, provide it here.

Section 3.0 Pollution Prevention Awareness

Provide employees with a "walk through" of the project site and identify areas of possible pollution, erosion and sediment controls, and pollution prevention practices which are applicable to their assigned job duties. Conduct refresher meetings and perform additional "walk throughs" on an as needed basis.

Section 4.0 Erosion & Sediment Controls

Identify the erosion and sediment controls to be implemented at the project site. For each erosion and sediment control, enter the estimated installation date and estimated removal date. If an unlisted erosion and sediment control will be implemented at the project site, provide the applicable information here.

Section 5.0 Potential Sources of Pollution & Pollution Prevention Practices

Identify the pollutant-generating activities likely to be present at the project site; implement and maintain the corresponding pollution prevention practices. If an unlisted pollutant-generating activity is likely to be present at the project site, describe it, identify the associated pollutant(s), and provide the corresponding pollution prevention practice(s) to be implemented and maintained.

Section 6.0 Stormwater Management Controls

Identify the stormwater management controls to be implemented at the project site, if applicable. For each stormwater management control, enter the estimated installation date. If an unlisted stormwater management control will be implemented at the project site, provide the applicable information here.

Section 7.0 Spill Prevention & Response

Most spills can be cleaned up following manufacturer specifications. The priority should be to protect all people, equipment, property, and the environment. Enter the telephone number of your local fire and police departments.

Section 8.0 Inspections & Corrective Action Log

Enter the qualified inspector's company/organization name, the inspector's name, telephone number, and qualifications. Select the applicable inspection schedule, enter the construction activity inspection date, and enter the date and rainfall amount of the last measurable storm event (if applicable). Identify if the implemented best management practices are in compliance with the SWPPP. Enter corrective actions needed; the party responsible for implementing the corrective actions, and the date corrective actions were taken, if applicable. Make additional copies of the inspection and corrective action log as necessary.

Section 9.0 Grading & Stabilization Activities Log

Enter the date grading activities were initiated, a description of the grading activities including location, the date grading activities ceased, the date stabilization measures were initiated, and a description of the stabilization measures including location.

Section 10.0 SWPPP Modification & Update Log

Enter the SWPPP modification date, description of the SWPPP modification/update, and the name and title of the SWPPP modification preparer, if applicable.

**AGREEMENT IN LIEU OF A STORMWATER MANAGEMENT PLAN
SINGLE-FAMILY DETACHED RESIDENTIAL STRUCTURE**

Construction Activity Operator:

Name: _____

Contact: _____

Mailing Address: _____

City: _____ State: _____ Zip: _____ Phone: _____

Email address (if available): _____

Location of Single-Family Detached Residential Structure:

Address (if no address description of location): _____

City: _____ State: _____ Zip: _____

County (if not located within a City): _____

In place of a Stormwater Management Plan for the construction of this single-family detached residential structure, I agree to comply with the requirements of this "Agreement in Lieu of a Stormwater Management Plan" (or other requirements as established by the Department when necessary) to ensure compliance with the applicable post-construction stormwater management provisions of the Virginia Stormwater Management Program (VSMP) Regulations.

REQUIREMENTS

- As required by the Construction General Permit (VAR10), a copy of this signed and dated "Agreement in Lieu of a Stormwater Management Plan" shall be maintained in my Stormwater Pollution Prevention Plan (SWPPP) for the construction activity.
- Post-construction runoff from the property shall be minimized to the maximum extent practicable and shall be controlled to prevent flooding or erosion damage from occurring on adjacent or downstream properties. In meeting this requirement, I agree to direct:

- runoff from rooftops as non-erosive sheet flow to well-vegetated areas on the property to the maximum extent practicable,
- runoff from on-lot impervious surfaces (e.g., driveways, parking areas, sidewalks) as non-erosive sheet flow to well-vegetated areas on the property to the maximum extent practicable, and
- runoff from lawns as non-erosive sheet flow to undisturbed naturally-vegetated areas on the property to the maximum extent practicable.

I fully understand that not complying may result in the revocation of this “Agreement in Lieu of a Stormwater Management Plan” and that the submission of a project-specific Stormwater Management Plan in accordance with 9VAC25-870-55 of the VSMP Regulations may be required.

This “Agreement in Lieu of a Stormwater Management Plan” does not authorize land disturbance. Land-disturbing activities cannot begin until the applicable local Virginia Erosion and Sediment Control Program (VESCP) Authority provides authorization.
